friends of both former City Chamberlain Charles H. 1I'de and Police Commissioner Waldo confirmed today a report that a decided coolness now exists between these two former friends, and that the foud dates back many months. The cause of the falling out was ascribed to differences which arose between the then City Chamberlain and Waldo when the latter was the head of the Fire Depart ment. These differences are said have been accentuated after Waldo be came Police Commissioner.

That friendly relations have long exsted between Hyde and certain police officials now under Waldo is understood the District-Attorney. It is further stated that Mayor Gaynor is fully inebb and flow of the friendship between his former City Chamberlain and Walde Walde at the home of the Mayor. This was a few days before Weldo was appointed Fire Commissioner. Friends of Hyde declare that the Brooklyn lawyer warmly advocated the appointment of Waldo to Mayor Gaynor.

Neither Hyde nor Waldo when asked by an Evening World reporter to discuss the subject would utter a word as to what caused the parting of the ways, but both frankly admitted that of late they had been seeing very little of each other. According to a lawyer who has been called into the defense of Lieut. Charles Becker by John F. It will amount to the accusation that Rosenthal was killed, not by one of the four men accused of the crime by "Jack" Rose and "Bridgie" Webber, but by one of the District-Attor-
